Dear Families,

This week scholars brainstormed different types of organism so they could pick a topic to write about for Spanish informative writing. In Spanish language arts, scholars read about different organisms and their habitats and were able to summarize in it in Spanish. They continued to learn about different organism and identify their habits in UOI. During English language arts, scholars reviewed how to synthesize different text and find the subtopic to prepare for next week's summative assessment. During math scholars learned about triangle, quadrilaterals, squares and rhombuses. In UOI scholars learned to read DC's weather chart and make comparisons to other Hispanophone countries.

Have a Great Weekend,  
The 3<sup>rd</sup> Grade Team
