Dear Families,

This week in Language Spanish Arts and IB students learned the similarities and differences between Carey Turtle and the Turtle of Galápagos Islands, in Ecuador. They also learned the habitat in which both organisms live, as well as their physical traits. During English language arts, scholars started their new unit on character study and started their book groups. In math, scholars continued to learn different multiplication strategies and how to decompose multiplication equations. In English UOI, scholars “packed” for a trip to different climate zones to visit their organisms from Spanish writing.

Have a Great Weekend,
The 3rd Grade Team
