- 11/21/2019 Celebration of learning
- 11/22/2019 Parent Teacher Conference

CELEBRATION OF LEARNING!

We are all glad to invite you to our Celebration of learning which will be held in our First Grade French Classroom on Thursday 21st! We can't wait to showcase our centers and share what we learned! :D

English Language Arts

Now that we have gotten started with becoming Non-Fiction Readers, this week we will work on bringing information on each page to life! This inferential thinking will help our scholars envision the information and learn more from the Non Fiction text.

Shh... This week's report in Phonics; Word detectives take the case of investigating the Silent E. We will begin our mission looking for tricky words ALL DAY long—during reading, during writing and especially during word study.

Units of Inquiry

It's our last week of Indigenous Cultures and how they influenced our present learning! We will review the three cultures we did research on (Mayas, Incas, and Aztecs) and we will compare their similarities and differences Then we will make a project to show they influenced our present day.

French Language Arts

Our Assessment have been successfully done! As we review what we have been learning during the past weeks; we will be challenging more and more the kids in vocabulary. We will also reinforce the reading level by going deeper on the syllabus recognition/association.

Math

Our class is starting a mathematics unit called Building Numbers and Solving Story Problems from the Investigation curriculum. This unit is an introduction to mathematical ideas such as counting and comparing quantities, and addition and subtraction. Throughout this unit, students will be working toward several goals.
